

ELECTRICAL SAFETY INSIDE

Can you find all 10 electrical safety hazards in this picture? Answers are printed upside down on the bottom of the page. Here are some clues . . .

Never use hair dryers or radios in the bath or shower • Never pull a plug out by the cord • Do not play with broken outlets

Put only cords into outlets; NEVER fingers or keys • Do not play with any torn or taped electrical cords

BEDROOM: keys in outlet, screwdriver in outlet, broken outlet by alarm clock. **KITCHEN:** fork in toaster, frayed electric cord. **BATHROOM:** radio near bathtub, hair dryer cord in water. **FAMILY ROOM:** overloaded outlet, pulling plug out by cord, electric cord under rug.
